Esports Systems Showcase 2022

EXP – Esports Experience Center & New-Media Laboratory

7 - 8 December 2022 | 11am-6pm | Kallang Wave Mall, #02-08/09/10 | Singapore 397628

ESPORTS SYSTEMS SHOWCASE

CHAIRMAN'S MESSAGE

For this year's edition, we have expanded the Esports Systems Showcase with a larger floor-area and more exhibitors in a brand-new acoustically-treated multi-purpose venue called the New Media Laboratory, adjacent to our Esports Experience Center (EXP).

Our New-Media laboratory was incepted with the influx of opportunities from our Media Industry partners to satisfy a wide-range of infrastructural problems at other existing venues like acoustics, rigging and high-speed internet.

With the New-Media Laboratory, lighting fixtures, projectors and audio systems can be rigged on the existing truss system, minimizing costs, in an environment that is ready to accept recording sessions, product launches, press conferences and video shoots that are ready to stream online – enabling borderless events without long setup times.

As a key pillar in EEA's Educational initiative, Esports Entertainment Asia, together with Bells Academic Group, we've created new curriculums in Audio, Video and Lighting that are backed by SkillsFuture, equipment manufacturers and their technical representatives.

With chip-shortages and supply-chain issues plaguing us during the pandemic, manufacturers find it difficult to satisfy product demand and at this showcase, you will be able to touch, view and learn more about these in-demand technologies.

Esports Entertainment Asia, through its network of AV solutions providers has garnered industry experts for our esteemed invitees to learn and experience how standards in streaming, recording, live shows and events have evolved. We have also incorporated a career fair with our employability partner, e2i during the event.

Class-leading brands, products and representatives with industry experience will be on-site so that they can share how their solutions have made a huge impact in the world of media and live entertainment.

Together with our industry partners, we warmly welcome you to our 3rd Edition of the Esports Systems Showcase.

Mr. Johnny Ong
Co-Chairman
Esports Entertainment Asia

" Career Fair with e2i "

With our employability partner e2i, we will be incorporating a career fair at the Esports Systems Showcase.

Explore better prospects with leading companies in the MICE, AV, Live Entertainment, Hospitality and Tourism industries. With e2i being a Tripartite Initiative of the National Trades Union Congress to support nation-wide manpower and skills upgrading initiatives, the career fair is set out to bridge the general public with employers seeking employment and employability solutions.

" ABOUT THE ESPORTS SYSTEMS SHOWCASE "

ESPORTS SYSTEMS SHOWCASE

Esports Systems Showcase is a walk-about exhibition-style event where attendees get to meet Systems integrators, Manufacturers, Production Engineers, Producers, Brand Representatives and Content Creators to talk about AV solutions and needs towards live and streamed events and media creation. Stalwarts from the IT, Audio, Lighting and Video industries will all be on deck to personally address your technical queries to quell your doubts and gain insights to state-of-the-art technologies.

LIVE ESPORTS PRODUCTION WORKSHOP

The LIVE ESPORTS PRODUCTION WORKSHOP also spun off a consultancy and services contract with Informa Markets Trust, which is a subsidiary corporation of Informa Markets. Informa Markets is the world's leading B2B information services group and the largest B2B event organizer, has over 11,000 staff from over the world and produce more than 550 intentional B2B events and brands each year in more than 40 countries. The consultancy and services contract was to assist Informa Markets Trust with the formulation and execution of an Esports Systems Solutions Pavilion that showcased the equipment and workflows needed within an Esports Production for their largest LED/Entertainment technology tradeshow in China named LED China.

ESPORTS SYSTEMS SHOWCASE

“ THE ORIGINS ”

Following the resounding success of the Esports Live Production Workshop held at Cathay JEM on the 2nd to 4th of December 2020, we were approached by many organizations and Institutes to hold workshops at their premises. While this might work for the institutes and organizations, we decided that it might benefit the public more if we continue our collaborative efforts with our esteemed vendors and partners from the production industry to bring such workshops into EXP, EEA's very own Esports Experience Center located right at the vicinity of Singapore's Sports Hub at Kallang Wave Mall.
